WARNING
The level of Lake Cumberland can rise or fall suddenly without warning. Boaters and campers should be aware of possible sudden changes in water elevation and have a plan in place to protect against loss of life and property.

Toilets are not available and campers should bury waste at least 6 inches deep and at least 200 ft. from the shoreline. Pack out all trash. Leave area clean for next campers. Campers are also asked not to cut any live vegetation.

For additional information contact:
Resource Manager’s Office
Lake Cumberland
855 Boat Dock Rd.
Somerset, KY 42501-8679

Campers are encouraged to use developed campgrounds where security and the enforcement of laws are provided. Primitive camping outside of developed campgrounds is at the camper’s risk.

Campers camping outside of developed campgrounds do not have access to developed campgrounds, fire engines, lifeguards, or rangers.
